

Working in partnership

Are you a Nursing Student?

**If so, come and join the MINT
(Men into Nursing Together).**

We aspire to be a **national network, that promotes and supports men who want to become Nurses, whilst encouraging men who wish to join the profession but do not know how, or feel that nursing is not a job for men.**

Our long-term goal is to help end the disparity of men in nursing and make nursing a diverse and inclusive profession for all.

Come and join us on online

 **MINT: men into nursing together**
